8h30 – 13h30

Virtual event – details to be provided prior to the event

Please fill in the form available [HERE](#) to register for this event

This event is free of charge.

- > The European Pellet Council is pleased to invite you to participate in the **8th International ENplus® Auditors' Workshop**, taking place virtually on **15th December 2020**. The link will be communicated to the final participants several days prior to the event. This year's workshop will focus on some highlights of the revision process.
- > The workshop is organised primarily for the **auditors of inspection bodies** that perform **ENplus®** audits of pellet production plants, traders', or service providers' facilities. As stated in the **ENplus® Handbook**, all listed auditors must participate **at least every second year** in an auditors' workshop organised by EPC. Please note that this is not an initial Auditor Training and you will not be deemed to have passed the Auditor Training solely by participating in the workshop.
- > This workshop is not limited only to auditors. **We welcome and encourage the participation of other ENplus® stakeholders** such as certification bodies and pellet associations. This will help to further strengthen the level of mutual understanding and cooperation that has always been making **ENplus®** the great success it is today.

See you in December!

Please note that the workshop will be held entirely in English

We are a world-leading, transparent, and independent certification scheme for wood pellets. From production to delivery, we guarantee quality and combat fraud along the entire supply chain.
