

## Monthly Update

April 2023

ENplus<sup>®</sup> reports 13.3 million tonnes of certified pellets in 2022, while the certified production this year is projected to surpass 14 million tonnes. The evolution of the certified production over the years is shown in the graph above. [Learn more on the topic here.](#)

Didzis Palejs from LATbio shares information about the Latvian pellet market and ENplus<sup>®</sup> local impact. [Click here for the full interview.](#)

This year again the ENplus® pellet producers have been highlighted in Bioenergy International's World Pellet Map 2023. [See here how you can gain access to the map and the magazine.](#)

## Do you know?

Italy is the country with the biggest growth in ENplus® certified producers in 2022. This comes as no surprise since the country keeps the leading position in pellet use for residential heat.

ENplus® is looking for an Administrative Assistant. If you have some experience with processing databases and are interested to join our team, apply now! [Full information about the vacancy here.](#)

The 10<sup>th</sup> ENplus® Inspectors' Workshop will take place on 9 May 2023, in Brussels. This year's edition will focus on the highlights of the scheme revision. [Learn more.](#)

Training for inspectors of pellet plants who want to perform ENplus® inspections of pellet production plants and pellet trader facilities will be held in June in Austria. [Full information.](#)

The next edition of European Bioenergy Future (EBF) conference will take place on 28-30 November 2023 in Brussels. Stay tuned for updates!

The 15<sup>th</sup> edition of EXPOBIOMASA taking place in May is expected to gather a great number of biomass professionals in Valladolid, Spain. [Learn more about the event here.](#)

Bioenergy Insight magazine is returning to Brussels for its annual International Biomass Congress and Expo. High-level speakers, experts in their field, will address a range of topical issues relating to the biomass sector. [See details!](#)
