

Monthly Update

February 2024

More Than A Decade with Us

ENplus[®] starts a new initiative which will tell the stories of companies that applied for a certification more than 10 years ago and remained certified all these years. Stay tuned and follow our website and social media!

Interview

Krunoslav Boban from TÜV NORD Adriatic shares his experience with the certification scheme and makes prediction on who will have advantage in the pellet market in the future. Full interview [here](#).

New documentation

The ENplus[®] Guidance document [ENplus[®] GD 3004](#) was published on our website. It is an informative document that applies to the mass balance systems of producers, traders and service providers and provides instructions to the ENplus[®] certification bodies for a plausibility check of a mass balance system.

Advice

ENplus® Head Office would like to provide advice so that when choosing a pellet supplier within any tender, technicians know how to choose a company that complies with the certification. More information on [our website](#).

Job vacancy

We are looking for a Certification Technical Manager and a Certification Assistant. Find out more about these job vacancies [here](#).

Do you know?

Despite the extreme conditions of the war in Ukraine, a total of 15 Ukrainian pellet producers applied and received their ENplus® certificate since January 2023. Find the full list on [our website](#).
