

# Monthly Update

October 2024

## Interview

Andrea Piazzalunga from the ENplus® Testing Body [Water & Life Lab](#) advises companies to pay attention to moisture content, fine particles and mechanical durability because these could lead to a non-conformity when it comes to the scheme's requirements. Find the [interview here](#).

---

## National Support Schemes 2024

Consumers from all over Europe can apply for financial aid when purchasing pellet boilers and stoves to replace old appliances. Check out our [up-to-date interactive map with the available support schemes](#) in most countries on the continent.

---

## More than a Decade with Us

The story of the first Slovenian wood pellet producer to become ENplus® certified is the next one we tell as part of the campaign "More Than a Decade with Us". Learn more [about RZ Pellets d.o.o. here!](#)

---

**Reminder**

The bag design of certified pellets must include a serial number that allows identification of the company that bagged the pellets, the site of the bagging, and the date of the bagging. Certified companies are free to choose the format of the serial number as long as it includes the mandatory 3 types of information and is permanently printed. However, they must introduce it on the pellet bag no later than 1<sup>st</sup> January 2025. Information on the topic is provided in [the document ST 1003](#).

---

## FAQ

The Frequently Asked Questions section on our website can help you find answer to all questions related to the scheme revision, requirements, and procedures. Learn [more here](#).

---

## Do you know?

The European Commission proposed a delay of EUDR (EU Deforestation Regulation) that was approved by the Council. If approved by the European Parliament, it would make the law applicable on 30 December 2025 for large companies and 30 June 2026 for micro- and small enterprises. Learn [more here](#).
