

Monthly Update

March 2026

More Than A Decade With Us

The Brazilian pellet producer [Koala Energy](#) is a company of steady innovation and a long term commitment to quality. Find out more about their story and their over-10-years-loyalty to ENplus® [here](#).

Interview

We had the chance to talk with Mark Stafford from the [UK Pellet Council](#) about the evolution of the UK's wood pellet sector. Find the [interview here](#).

More Than A Decade With Us

[ALFA WOOD GROUP S.A](#) is one of Greece's most established and forward looking players in the wood and bioenergy sector. Their plant produces more than 65 000 tons of ENplus® certified pellets annually. Learn more about them [here](#).

Consumer page

Consumers who are unfamiliar with the value that ENplus® brings to the market, or the importance of purchasing certified pellets can catch up by visiting our [revised consumer page](#).

Support for clean cooking in Africa

As part of the initiatives for the 15th anniversary of ENplus®, the certification scheme and [Bioenergy Europe](#) have decided to support the Sustainable School Cooking Program of the World Bioenergy Association. [Read more](#) about it.

VAT update

VAT on wood pellets [was reduced to 10% in Spain](#) as part of relief package aimed at cushioning households and businesses from the economic shock of the Middle East crisis.

Do you know?

[Bioenergy Europe](#) just updated [its European Bioenergy Landscape page](#), featuring the latest data from Eurostat. From energy production and consumption to bioenergy's share in renewables and energy dependency, this tool gives ready to use data and graphs on how bio-based energy contributes to Europe's energy landscape.
