National Support Schemes

Consumers of pellets from across Europe are eligible to apply for financial assistance when purchasing pellet boilers and stoves to replace outdated appliances. Please refer to [our interactive map](#), which provides information about the support schemes available in many European countries.

Interview

Māris Zamovskis, CEO of ENplus[®] Certification Body [BM Certification](#), explains how the organisation supports the bioenergy industry and why reliable long-term partnerships are at the heart of the company's mission. The full interview is available [here](#).

Cooperation With Public Authorities

ENplus[®] continues to actively cooperate with competent public authorities to prevent and address cases of trademark misuse. Learn more about cooperation with the Republic of Srpska [here](#).

Fraud Management

ENplus® is the pellet quality certification scheme with the most active fraud management on the market. As a result of our team's efforts, ENplus® recently surpassed more than 1500 solved fraud cases. Learn more about the trademark protection [here](#).

Reminder

ENplus® A2 is still a guarantee for high quality product, as it has only a few slightly less strict requirements in comparison to ENplus® A1. ENplus® encourages companies who find it difficult to meet the consistent ENplus® A1 quality of their pellets to consider getting certified for ENplus® A2.

Do you know?

European small-scale pellet consumption reached more than 19 million tonnes in 2025, a new historical record. Residential consumption alone rose to 15,3 million tonnes, increasing by 5% compared with 2024 after several years of more modest growth. Learn more from [Bioenergy Europe's Pellets Report 2026](#).

Reminder

We are looking for a motivated Administration Assistant to support our Certification Department and contribute to the daily management and development of the ENplus® certification scheme. Find out more about [the job vacancy](#).
